RICERCA, INNOVAZIONE E PERSONALIZZAZIONE RESEARCH, INNOVATION AND CUSTOMIZATION

Nel nostro ufficio R&D di Travagliato lavora uno staff dalla filosofia progettuale ben precisa, che punta a ristabilire l'equilibrio tra design, concetto e funzionalità.

Nel reparto produttivo, acciaio ed alluminio sono forgiati da personale altamente specializzato con processi di lavorazione di grande precisione, che rappresentano da 50 anni questa realtà produttiva.

The staff of our R&D department in Travagliato work according to a strictly-defined design philosophy aimed at restoring the balance between design, concept and functionality.

In our manufacturing plant highly skilled workers forge steel and aluminum using ultra-precise processes that have been the company trademark for 50 years.

In unserer R&D Abteilung in Travagliato arbeitet ein Team mit einer genauen Planungsphilosophie, mit dem Ziel das Gleichgewicht zwischen Design, Konzept und Funktionalität wiederherzustellen.

In unserer Produktionsabteilung werden Stahl und Aluminium von hoch qualifiziertem Personal zusammen mit den feinsten Arbeitsprozessen geschmiedet, die seit 50 Jahren diese Fertigungs-wirklichkeit darstellen.

L'équipe qui forme notre service de recherche et développement de Travagliato adopte une approche visant à établir un équilibre entre design, concept et fonctionnalités.

Dans nos ateliers, l'acier et l'aluminium sont forgés par des spécialistes utilisant des technologies de pointe qui ont fait de cette production une réalité depuis 50 ans.

En nuestro departamento de R&D de Travagliato trabaja una plantilla con una filosofía de proyecto muy precisa, la cual persigue restablecer el equilibrio entre diseño, concepto y funcionalidad.

En la sección de producción, personal altamente especializado forja acero y aluminio mediante procesos de elaboración de gran precisión los cuales representan esta realidad productiva desde hace 50 años.

EQUIPMENT FOR HANDLING AND STORAGE

CARRELLI E SUPPORTI MURALI SHELF TROLLEYS AND WALL BRACKETS

Adatti al trasporto ed allo stoccaggio di set sterili nonché adatti al servizio di logistica d'impacchettamento e gestione dei panieri grigliati utilizzati nel processo di sterilizzazione.

Costruiti interamente con lamiera e profilati di sezione quadra e tonda di acciaio inox AISI 304 (1.4301).

Completati ed opportunamente saldati con procedimento TIG per evitare infiltrazioni e/o depositi di sporco, a garanzia di una perfetta igiene.

Finitura superficiale di elettrolucidatura di serie.

Suitable for the transport and storage of sterile sets as well as for the handling and the management of grated trays used in the sterilization process.

Entirely built with metal sheet of square and round section AISI 304 (1.4301) stainless steel profiles.

Completed and suitably welded with TIG process, to avoid infiltration and/or dirt deposit, ensuring perfect hygiene.

Standard electro-polished surface finish.

Geeignet für den Transport und die Aufbewahrung der sterilen Sets sowie für die Verpackungslogistik und das Handling der im Sterilisierungsverfahren verwendeten Gitterkörbe.

Vollständig hergestellt mit Blech und quadratischem sowie rundem Profilmaterial AISI 304 (1.4301).

Verschweißt mit TIG-Verfahren, um Infiltrationen und/oder Schmutzablagerungen zu vermeiden.

Auf diese Weise wird umfassende Hygiene gewährleistet. Serienmäßige Elektropolitur der Oberflächen.

Convient au transport et au stockage des kits stériles et adaptés au service logistique d'emballage et de gestion des réseaux de paniers grillagés utilisés dans le processus de stérilisation.

Entièrement fabriqués en tôle et profils de section carrée et ronde en acier inoxydable AISI 304 (1.4301).

Dûment remplis et soudés selon le procédé TIG pour prévenir les infiltrations et / ou dépôts de saleté et garantir ainsi une hygiène parfaite.

Finition de surface standard en électro-polissage.

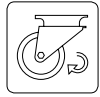

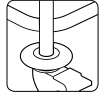

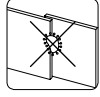

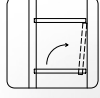

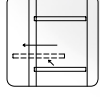

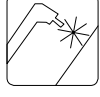

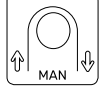

I transporte y el almacenamiento de set estériles así como para el servicio de logística de empaquetado y gestión de las cestas enrejadas empleadas en el proceso de esterilización.

Construidos íntegramente con chapa y perfiles de sección cuadrada y redonda de acero inoxidable AISI 304 (1.4301).

Completados y oportunamente soldados con el procedimiento TIG para evitar infiltraciones y/o depósitos de suciedad, para garantizar una higiene perfecta.

Acabado superficial con electropulido de serie.

OP-RACK

Scaffalatura mobile per containers corredata da:

- Nr. 3 coppie di guide in acciaio inox per colonna, regolabili in altezza ogni 110 mm (versione DIN);
- Nr. 10 Coppie di guide in nylon per colonna, con passo 114 mm (versione ISO).

Mobile shelving for containers equipped with:

- Nr. 3 couple of guides in stainless steel, height adjustable every 110 mm (DIN Version);
- Nr. 10 couple of nylon guides, with distance 114 mm (ISO Version).

Mobiler Regalaufbau für Behälter, ausgestattet mit:

- Nr. 3 Schienenpaaren aus Edelstahl, pro Spalte, höhenverstellbar jede 110 mm (DIN Ausführung);
- Nr. 10 Schienenpaaren aus Nylon, pro Spalte, mit Abstand von 114 mm (ISO Ausführung).

Rayonnages mobiles pour conteneurs équipées avec:

- Nr. 3 couples de guides en acier inoxydable pour colonne, réglable en hauteur tous les 110 mm (version DIN);
- Nr. 10 Couples de guides en nylon pour colonne, avec pas 114 mm (version ISO).

Estanteria mòvil para contenedores medidas equipada con:

- Nr. 3 Paredas de guias de acero inoxidable por columna, regulables en altura cada 110 mm (Version DIN);
- Nr. 10 parejas de guias de nylon por columna, con paso de 114 mm (Version ISO).

EQUIPMENT FOR HANDLING AND STORAGE

CONTENITORI E RIPIANI CONTAINERS AND SHELVES

Cesti, contenitori, scaffali ausiliari per logistica di sterilizzazione.

Costruiti interamente in filo di acciaio inox AISI 304 (1.4301) sovrapponibili a pieno ed a vuoto. Corpo in un solo pezzo di rete opportunamente ripiegato e perfettamente saldato all'anello superiore. Anello inferiore di base chiuso per evitare punti d'appiglio e per rinforzo del fondo.

Contenitori in polycarbonato. Con pareti laterali perforate. Bordo perimetrale per il posizionamento su guide. Impilabili uno dentro l'altro.

Baskets, containers, auxiliary shelves for sterilization logistics.

Built entirely in AISI 304 (1.4301) stainless steel wire, stackable full and empty. Body made of a single piece of net suitably bent and perfectly welded to the upper ring. Closed bottom base ring to avoid snagging points and to reinforce the bottom.

Polycarbonate containers. With perforated side panels. External edge for setting on guides. Stackable when empty.

Körbe, Behälter, Hilfsregale für die Sterilisierungslogistik.

Vollständig hergestellt aus Edelstahlraht AISI 304 (1.4301), im vollen und im leeren Zustand stapelbar. Körper aus einem einzigen entsprechend gebogenen Gitterstück, mit perfekter Schweißung im oberen Ring. Unterer Basisring geschlossen, für die Verstärkung des Bodens und die Vermeidung von Aufhängestellen.

Behälter aus Polycarbonat. Mit perforierten Seitenwänden. Rand für Positionierung auf Führungen. Im Leerzustand ineinander stapelbar.

Paniers, conteneurs, étagères auxiliaires pour logistique de stérilisation.

Entièrement fabriqués en fil d'acier inoxydable AISI 304 (1.4301) surimposables en charge et à vide. Corps monobloc en filet convenablement plié et parfaitement soudé à la bague supérieure. Bague inférieure de base fermée pour éviter les points d'ancrage et pour renforcer le fond.

Conteneurs en polycarbonate. Avec parois latérales perforées. Bordure pour positionnement sur guides. Encastrables les uns dans les autres.

Cestas, contenedores, estanterías auxiliares para logística de esterilización.

Construidos íntegramente en alambre de acero inoxidable AISI 304 (1.4301) superponibles llenos o vacíos. Cuerpo en una sola pieza de red oportunamente replegada y perfectamente soldada en el anillo superior. Anillo inferior de base cerrado para evitar puntos de enganche y como refuerzo del fondo.

Contenedores de polycarbonato. Con paredes laterales perforadas. Borde perimetral para el posicionamiento sobre guías. Insertables vacíos uno dentro de otro.
